Critical Thinking

Hi, my name is Michelle, a passionate and dedicated Information Systems (IS) student at Universitas Pelita Harapan. My academic journey focuses on bridging technology and business to create innovative solutions that enhance organizational efficiency. I have a strong foundation in system analysis, database management, and web development, which allows me to design and implement practical systems that align with business goals.

In addition to my technical expertise, I am deeply interested in how information systems drive decision-making and digital transformation. Through various projects and internships, I have honed my problem-solving and critical-thinking skills, ensuring I can adapt to challenges in dynamic environments. My goal is to contribute to the development of sustainable and impactful IT solutions that benefit both businesses and communities.
